FM: Anthony Marrian

Have you ever visited the Virgin cinema in the Fulham Road? If you haven't, and you go on a cold day, take a hat, gloves, scarf and a thick coat and hope that the film doesn't last too long. Oh, and if you go on a hot summer's day, prepare to lose some weight through perspiration. One final tip, take a pair of ear muffs with you, you know the sort that pneumatic drill operators wear. This way, you'll have a swell time and won't begrudge your £7.50 in the least

All the best!
